

RS-102 Classic

Full Range Speaker System

The **PULZ RS-102 Classic** is a versatile dual-cone dual-driver full range loudspeaker system.

It has been designed for applications as varied as theatre surround sound systems, audiovisuals and playback in clubs and restaurants, to name but a few.

The **RS-102 Classic** is capable of handling a variety of programme and applications in a convenient size and price level.

The 5¼ inch full range drivers have cast aluminium body and large magnets.

The vented enclosure design maximises low frequency performance.

The enclosure is made of high-density particle board, finished in stipple matt black polyurethane paint.

T-nuts and Allen screws are provided for easy installation.

features

- full range loudspeaker system
- multiple applications
- all round performance
- extreme reliability
